2 Introduction

2.1 Purpose

Describe the purpose of this requirements specification.

2.2 Scope

Define the system and its boundaries.

3 Functional Requirements

3.1 System startup

The system shall complete its startup sequence within 30 seconds.

3.2 Installation verification

The installed system shall conform to the approved installation drawings.

3.3 Operational performance

The system shall meet its specified performance limits.

3.4 System operation

The system shall complete startup within 30 seconds.

4 Performance Requirements

4.1 Measurement performance

The system shall ...

5 Interface Requirements

6 Environmental Requirements

7 Safety Requirements

8 Verification

Define the verification approach and acceptance criteria.
